Subject: Fw: WV Chemical Spill - urgent

Events today -- detection of another chemical or family of chemicals -- polyglycol ethers -- that was released. In anticipation of EPA's being asked, it will probably be helpful if we have helped to figure out our authorities with regard to this chemical. This is one of several emails I will send now. Thanks.

Subject: RE: WV Chemical Spill - urgent

Additional info on both CSB source and the chemical at issue. Thanks to Fran, Kathy and Tito for pulling this together!

From ATSDR - this is NOT cleared for public release.

INTERNAL DRAFT NOT FOR EXTERNAL DISTRIBUTION

This is the statement I mentioned earlier tonight that CDC prepared based on the new information we received today about PPH. We are sharing with state now. This may get posted on our website later this evening. I can tell you how much I appreciate your patience tonight in waiting to hear more from us on this subject. At this point in the evening and with this new timetable for posting that I just heard about, I realize there is very limited time for any discussion about this with EPA R3. Please let me know if you'd care to share any comments or you would like to just acknowledge that you are aware we are doing this at this point.
